

“Open Innovation Network for
Technology & Entrepreneurship Communication Hub”

Online Roadshow & Matchmaking

— DIGITAL INNOVATIVE TECHNOLOGIES

“Open Innovation Network for Technology & Entrepreneurship Communication Hub”, “OnTech”, is an international technology trade promotion network project established with cooperation between China Centre for International Science and Technology Exchange (CISTE) of China Association for Science and Technology (CAST) and International Technology Transfer Network (ITTN), which is officially launched during the first online roadshow on March 21, 2020.

“OnTech” aims at promoting open innovation cooperation; facilitating international technology trade and innovative industrial cooperation generated by quality science, technology and innovation resources; motivating quality regional development; and making contribution to practice of the innovation driven development strategy.

“Online Roadshow & Matchmaking of International Innovative Technology against COVID-19 (North America Area)” was successfully held on March 21, 2020 (Saturday), hosted by China Centre for International Science and Technology Exchange (CISTE) of China Association for Science and Technology (CAST) and International Technology Transfer Network (ITTN). The roadshow was broadcasted online in real-time, 7 startups from US and 6 commenting experts participated, more than 20,000 people viewed online.

In the future, with the support of CAST, the country's largest scientific research institution, Ontech will provide accurate, efficient and high-value services to promote the commercialization of innovative technologies between international suppliers and Chinese demanders. The first online roadshow of Digital Innovative Technologies will be held on April 22,. Focusing on digital innovation, we invite key projects from Israel, Russia, the UK, Italy, Germany, the Netherlands and other countries to conduct roadshow.
