

Technology Requirements of Suzhou Enterprises

Area of activity - Electronic Information

NO.	Technology Requirement	Enterprise
1	SFP28-LR 25G single-mode optical transceiver module	Jiangsu Hengtong Optical Network Technology Co., Ltd.
2	Ocean dynamic cable and towing cable	Hengtong Intelligent Ocean System
3	Application of high sensitivity compound semiconductor hall sensing chip	Suzhou Matrix Optoelectronics Co., Ltd.
4	Resistance temperature coefficient increases	Wangquan Technology (Kunshan) Co., Ltd.
5	Dynamic electrocardiograph	Suzhou Baihui Huaye Precision Instrument Co., Ltd.
6	Key technologies of system integration and management of lithium ion power battery	Jiangsu Soul New Energy Technology Co., Ltd.
7	XG-PON (10G EPON / 10G GPON)	Tongding Interconnection Information Co., Ltd.
8	Research and development of remote sensing related technologies	Kunshan Digital City Information Technology Co., Ltd.
9	Internet of things project in the field of new-generation information technology architecture	CSSiot
10	Development and industrialization of security front-end information acquisition system and big data analysis and mining cloud platform	Suzhou Spideradio Telecommunication Technology Co., Ltd.
11	National education cloud service platform	Kuodi Education Technology Co., Ltd.
12	AI+ intelligent traffic perception and control platform	Suzhou Sigma Technology Co., Ltd.
13	Smart urban management grid in Gusu district based on multi-layer GIS	Suzhou Sigma Technology Co., Ltd.

Società per
l'Innovazione
la Cooperazione e
l'Internazionalizzazione

NO.	Technology Requirement	Enterprise
14	Credit joint reward and punishment management system	Suzhou Sigma Technology Co., Ltd.
15	Construction of economic and industrial base support platform in Gusu district	Suzhou Sigma Technology Co., Ltd.
16	Automatic data cleaning tool for basic population database in Gusu district	Suzhou Sigma Technology Co., Ltd.
17	Software development	Suzhou New Spark Machine Tool Co., Ltd.
18	Big data analysis	Kunshan Bijiebi Information Technology Co., Ltd.
19	Enterprise credit assessment system based on industrial big data and block chain technology	Unigroup Cloud Engine
20	User experience -- big data feedback	Suzhou Qianchilang Information Technology Service Co., Ltd.
